

GH 8034

Gas heater

Product data sheet

Product category	Gas heater
Brand	Qlima
Model	GH 8034
Colour	Black
EAN code	8713508782034

Technical specifications

Heating capacity steps		6 (1900~3400)
Heating capacity	kW	3.4
Gas connection		2-in-1 Connector
Energy efficiency class		A
Consumption	g/h	138~247
Suitable for space (max.)	m ² / m ³	44 / 110
Gas cylinder capacity (max) ¹	kg	15
Gas bottle compartment size (Ø/h)	mm	320 / 650
Control		mechanical
Batteries required		1 x AAA (LR03)
Batteries included		Yes
Dimensions (w x d x h)	mm	440 x 420 x 720
Net. weight	kg	15.0
Guarantee	years	2

This product is not suitable for primary heating purposes.

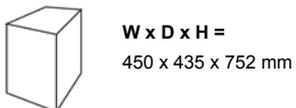

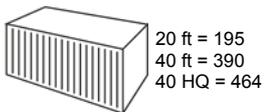

Package content

Gas heater, User manual, AAA battery, Ornamental coal

HOME MADE CLIMATES

Mood enhancing

Adjustable thermostat

Oxygen detection safety system

Tilt protection

Easy to move

High end design

Electronic ignition

Easy to operate

Features

Design: This gas heater is part of a robust range of Qlima products

Full colour box: The unit is delivered completely with auxiliary parts in a full coloured box showing applications and operation information in several languages.

Castors: For easy movement the gas heater is provided with castors.

Tip over safety switch: The tip-over switch will automatically shut the gas heater off when the unit is turning over.

Glass surface: The high end appearance of this gas heater is emphasised by the glass surface. So smooth, so contemporary, so beautiful.

Flexible: The gas heater is capable of heating any room at any time. All gas heaters are highly versatile, highly mobile and can be used to provide extra warmth to draughty hallways and lounges or for keeping you warm whilst working in the studyroom.

Efficient and quiet: The gas heater is efficient and quiet as no blowers or fans are required to distribute the heat.

Oxygen depletion sensor (ODS): The gas heater is equipped with oxygen depletion sensors (ODS). These sensors can tell how much oxygen is left in the air. If the oxygen level decreases then this activates the sensor and the gas shuts off to the logs. All of this happens long before you would feel the effects.

Electronic ignition: battery operated

Warranty: 2 year warranty

Red flame: The ornamental coal together with the red colour of the flames will bring back the feeling of old times and the coziness of a fireplace.

Glass front door: Equipped with a high-end class door with a silver coloured handle.

Automatic modulation device: with the included automatic modulation device the user can determine that the heating output will automatically reduce at a certain room temperature. This is highly comfortable and energy saving at the same time.
